Summary

I am a Full Stack Developer and to date I have worked with the following technologies:

HTML | CSS | Javascript | Bootstrap | PHP with Laravel Framework| MySql with Eloquent ORM

I worked as a team with a group of 5 colleagues based on the SCRUM methodology and using GitLab to develop an ad portal.

I am well presented, friendly, positive an enthusiastic person at all time. I make a positive contribution to achieving business objectives.
I maintain good working relationships with others. I follow company standards and procedures at all time. I take personal responsibility for own work and actions and demonstrate a high level of self-awareness. I am always looking for opportunities to develop myself.

Experience

Student
Aulab
Sep 2021 - Present (4 months +)
3 Months full time of Bootcamp. Things I've learned:

- HTML5 & CSS3
- Bootstrap
- Javascript
- PHP
- Laravel Framework
- MySql Database
- SCRUM and Agile Methodologies.
- Work in Team with SCRUM Method:

* with a team of 6 people we developed an ad portal in 2 weeks. We worked with the SCRUM methodology (reduced to just 2 weeks due to the timing of the course).
We had STAND UP MEETINGS every morning at 9.30, after which we each worked on different parts of the code, often with the "pomodoro tecnique". in the afternoon we had a follow-up with the SCRUM Master to verify that the project complied with the customer's requests and that the tasks were delivered on time.

Croupier-Inspector

Swiss Casinos
Jun 2019 - Dec 2021 (2 years 7 months)

Croupier
Genting Casinos UK
Mar 2018 - Apr 2019 (1 year 2 months)

Supervisor
Bottega Italia
May 2017 - Dec 2017 (8 months)
Supervisor and cashier manager. Constant interaction with customers and suppliers. Management of the Octopus accounting system and daily reports in Excel.

Soccer Referee
A.I.A. | Associazione Italiana Arbitri - FIGC
Jan 2009 - Jul 2016 (7 years 7 months)
I have been a football referee because sport has always been my passion. It was a wonderful experience that shaped my character a lot. I was a boy of just 20 years and I had to manage and enforce the rules for 22 players on the field, plus as many members on the benches of the two teams. Make split-second decisions and demonstrate firmness and confidence. Often managing the pressure of hundreds of fans who criticized my choices from the stands. In soccer it is a classic.

Manager
Moai Srl
Jun 2007 - Sep 2015 (8 years 4 months)
Bathhouse in the municipality of Fiumicino where I started working bringing sunbeds. After a season I started working as a cashier. The following years I took care of the cash department. The training of new staff, the orders of the various suppliers (bar, restaurant) and the management of the cash system and its optimization over the seasons. Making the operator's work fast and intuitive and guaranteeing the customer short waiting times. The facility had around 20-25 employees and a beach that accommodated from 1000 people a day, to over 4000 at the weekend.

Education

Aulab
Certificate, Full Stack Web Developer Bootcamp
Sep 2021 - Dec 2021
3 Months full time of Bootcamp. Technologies learned HTML & CSS, Bootstrap, Javascript, PHP, Laravel Framework, MySql Database.
